**Subject:** Microsoft Settlement

Mr. Attorney General:

I urge you to consider the state of the United States' current environment of cohesiveness in spirit and united in spirit and in need to support our infrastructure of corporate and government cooperation. Further, that the majority of all issues as related to the original suit have, in time, in free enterprise, and in expanded technology, have resolved themselves.

And so I ask that you endorse and support settlement of litigation between the United States Government and Microsoft Corporation.

Thank you for considering my request.  
Sincerely,  
Peggy Belflower
